

SHIVAM JADHAV

Denton, TX | (940) 843-9864 | jadhavshivam0228@gmail.com | [LinkedIn](#) | [shivamjadhav.com](#) | [Medium Blogs](#)

EDUCATION

M.S. in Computer Science – University of North Texas, Denton, TX | Aug 2023 – May 2025

B.Tech. in Information Technology – JBIET, Hyderabad, India | Jun 2017 – May 2021

TECHNICAL SKILLS

Languages: Java, Python, JavaScript/TypeScript, C#, SQL, Bash

Frameworks & Tools: Spring Boot, Node.js, React.js, Express.js, .NET Core, REST APIs, IntelliJ, Visual Studio.

Cloud & Distributed Systems: AWS (Certified Solution's Architect Associate), Azure, GCP, Docker, Kubernetes, Microservices, Infrastructure, CI/CD, Jenkins, Linux, Nginx

Databases: PostgreSQL, Microsoft SQL Server, Redis, MongoDB, DynamoDB

Software Practices: Agile, Test-Driven Development (TDD), SOLID Design Principles, Servant Leadership, System Design, Version Control (Git), Operational Excellence, Cloud Well-Architected Framework, Security & Encryption

AI/LLMs: LLM Integration, RAG Pipelines, Vector Databases (FAISS), Prompt Engineering, Evaluation & Guardrails, OpenAI APIs

PROFESSIONAL EXPERIENCE

Senior Software Engineer & AI Consultant – University of North Texas, Denton, TX | Sep 2025 – Present

Status Check – Operations Hub & Application Plane | Dev: [divisionbyinfinity.github.io/ophub](https://github.com/divisionbyinfinity.github.io/ophub)

- Led org-wide platform for monitoring infra, services, and endpoints, building a scalable **React/TypeScript frontend** with SOLID/OOP principles, enterprise RBAC, alerts, and resource/user management.
- Developed **Java/Spring Boot microservices** with Postgres, MongoDB, Docker, Redis, AWS, integrated CI/CD & IoT scripts.
- **Optimized enterprise React build:** reduced main bundle from **7.9MB → 4.5MB**, significantly improving startup/build times and production performance.
- Improved operational excellence: **reduced downtime by 30% and support tickets by 40%.**

Software Development Engineer Intern – ISN Software Corp., Dallas, TX | Jun 2025 – Aug 2025

- Built full stack applications using **C#, .NET Core, ASP.NET, Razor Pages, and React**, supporting enterprise-scale workflows.
- Developed a **health check monitoring system** for **100+ services** using REST APIs, multithreading, New Relic, and Azure Functions, improving uptime by **30%** and reducing support tickets.
- Delivered **5 PBIs to production**, resolving critical bugs via SQL Server stored procedures (account expiration handling), impacting **85K+ clients**.

Senior Software Engineer R&D – University of North Texas, Denton, TX | Sep 2023 – May 2025

Digital Signage Management – Product | Github: https://github.com/divisionbyinfinity/universal_digital_signage

- Led **MERN/Kubernetes platform** centralizing control for **100–10,000+ devices**.
- Built microservices for real-time content delivery, scheduling, device mgmt, reduced manual update from hours to **1s**.
- Deployed RAID-backed Dell EMC R740 & Raspberry Pi OS, saving **\$40K/year**, improving reliability.
- Implemented RBAC & dashboards, improving issue detection **45%**.
- Mentored 3 engineers, owning architecture, delivery, and code quality.

Software Engineer Lead – Cyrrup Solutions, Hyderabad, India | Jan 2021 – Aug 2023

- Led development of a **real-time IoT fleet management system** tracking 10,000+ vehicles using **MERN, Java/Spring Boot, Python, IoT devices, and Google Maps APIs**.
- Built **multithreaded Python ingestion server** with **Socket.IO, TCP/IP, Redis, and custom protocols**, processing **1M+ events/day**.
- Designed high availability microservices and data pipelines deployed on **Docker/Kubernetes (GCP)**.
- Automated reporting and alerting workflows, **reducing operational effort 70%** and improving response times.
- Delivered analytics and telemetry systems that **cut fuel theft by 40%**.

Software Engineer (Full Stack) – Ark Traders, Hyderabad, India | Jan 2019 – Jan 2021

- Developed **enterprise CRM and trading platform** serving **100K+ users** with mission-critical payment and reporting workflows.
 - Built **Lead Management CRM** covering end-to-end lifecycle, boosting client conversion rates by **60%**.
 - Integrated **telephony (Tata Tele APIs)** for click-to-call, call tracking, and dashboards.
 - Optimized **30+** reporting workflows with **minified APIs, IndexedDB, and Redis**, cutting load times and redundant requests **~60%**.
 - Built backend services with **Java/Spring Boot, Node.js**, frontend in **React**, and introduced **CI/CD with Jenkins and Docker**.
-

CERTIFICATIONS

- [AWS Certified Solutions Architect – Associate](#) - Proven skills in designing secure and scalable solutions on AWS
 - [Meta Certified Front-End Developer](#) – Built scalable, responsive web applications with React.js and modern JS.
 - [AI MOVE Fellow – AI Trainer](#) – Trained on LLM evaluation, prompt engineering, and AI model validation.
-

HIGHLIGHTS

- **Leadership:** Led teams of **7 engineers**, delivering 20+ flagship applications across startups, MNC's & Research institutions.
