Summary

Software Engineer with 5+ years of experience delivering scalable, high-performance systems across startups, MNCs, and research labs. Proven impact in building modular platforms for **85K+ users**, cutting deployment/setup time by **90%** through automation, and optimizing distributed systems. Skilled in **React, Node.js, .NET Core, Java, Python, and cloud-native architectures (AWS/Azure)**. Strong foundation in microservices, CI/CD, and ML integration. Certified in **Meta Front-End Development** and **Azure Fundamentals**, with **AWS Solutions Architect – Associate (in progress)**. -End Development and Microsoft Azure Fundamentals, with AWS Solutions Architect – Associate in progress

Skills

Languages & Frameworks: JavaScript/TypeScript, React.js, React Native, Node.js, Python, Java (Spring Boot), C#, .NET Core

Cloud & DevOps: AWS (Lambda, EC2, S3, DynamoDB, Aurora), Azure, Docker, Kubernetes, CI/CD (GitHub Actions, GitLab, Azure DevOps)

Backend & Databases: Microservices, REST APIs, Redis, SQL Server, MongoDB

AI/ML & Tools: NLP with Transformers (BERT, RoBERTa, ALBERT), PyTorch, Hugging Face

Collaboration & Ownership: Agile/Scrum, Git, Code Reviews, End-to-end system ownership, cross-functional teamwork

Experience

ISN Software Corporation, Dallas, USA

Software Development Engineer Intern | Jun 2025 – Present

- Built modular web applications and reusable UI components using React and .NET Core.
- Developed APIs and microservices hosted in Azure SQL Server and Spring Boot.
- Improved SQL query performance in Notification Framework, boosting efficiency for 85K+ contractors and 850 clients.
- Designed and implemented a real-time Health Check system for TechOps, ensuring high service availability.
- Collaborated with UX designers and senior engineers to deliver pixel-perfect features.

University of North Texas, Denton, USA

Software Development Engineer - Student Assistant | Sep 2023 – May 2025

- Developed Universal Digital Signage System (React.js, Node.js, MongoDB, Docker), reducing setup time by 90%.
- Engineered monitoring scripts (Bash/SSH) that cut incident response time by 60%.
- Managed Linux servers, GPU setup (CUDA), and RAID imaging for AI research uptime.
- Built REST APIs and microservices for signage and AI workloads.

Cyrrup Solutions, Hyderabad, India

Full-Stack Engineer | Mar 2021 – Aug 2023

- Built IoT fleet management platform using Node.js, Vue.js, Redis, and microservices architecture.
- Automated deployments with Docker and GitLab CI/CD, reducing errors and latency.
- Improved uptime by 30% through debugging TCP/IP, DNS, and container networking issues.
- Designed and optimized database-backed services using Amazon Aurora, enabling high availability and scalability for IoT workloads.
- Collaborated in agile teams to deliver real-time applications with pixel-perfect UI.

Projects

Universal Digital Signage System (UNT) | Sep 2023 – Mar 2025

- Designed and deployed a React.js + Node.js platform with MongoDB and Docker.
- Automated CI/CD with GitHub Actions, cutting deployment time by 90%.
- Built responsive SPAs with React and modular UI components.

Vehicle Black Box (Fleet AI Solution)

- Built real-time tracking system using Vue.js, Node.js, Redis, and Python.
- Integrated AWS/GCP services (S3, Pub/Sub, Cloud Functions) for elastic scaling.
- Designed microservices for fleet management and live analytics.

Education

University of North Texas, Denton, USA | Aug 2023 – May 2025

Master of Science in Computer Science

Research

AI Bug Priority Problem (MS-CS Research) | Aug 2024 – Dec 2024

- Trained transformer-based models (BERT, RoBERTa, ALBERT) with PyTorch, achieving 96% accuracy.
- Deployed ML models as Jira-integrated plugins for bug prioritization.

Certifications

- AWS Cloud Practitioner
- [DeepLearning.AI \(Specialization:- Machine Learning, Regression, Classification, ANN, CNN, RNN \)](#)
- [Microsoft Certified: Azure Fundamentals \(AZ-900\)](#)
- [Meta Certified Front-End Developer](#)
- [Linux & SQL by Google](#)
- AWS Certified Solutions Architect – Associate (Expected Aug 2025, in progress)
